

## WANT TO IMPROVE YOUR BUSINESS'S BOTTOM LINE?

"I use [savewithsrpbiz.com](http://savewithsrpbiz.com) to look up ways to save money and find new energy-efficiency tips and rebates. My advice to other businesses is that even minor changes make a difference. By simply partitioning our fluorescent lighting with three switches instead of one, we have seen a decrease in our utility bill this summer."

In this economic climate, most businesses are looking for opportunities to reduce expenses. To help, SRP developed [savewithsrpbiz.com](http://savewithsrpbiz.com), a one-stop website that offers energy- and money-saving solutions for every size and type of business.

From retail stores to warehouses, grocery stores to dry cleaners and just about everything in between, [savewithsrpbiz.com](http://savewithsrpbiz.com) offers "tailor-made" solutions for specific industries. You'll find quick-fix energy-saving tips as well as rebate programs that cover almost any type of energy-saving project you plan to undertake.

SRP's new website also offers an array of tools and services, including maintenance advice, equipment-usage information, price plan comparisons, bundled payment options and success stories from other companies that implemented energy-saving measures. If you don't see what you're looking for, take advantage of "Ask an Expert" and get a customized answer for your question from our team of engineers and researchers.

To find ways to save your business energy and money, visit [savewithsrpbiz.com](http://savewithsrpbiz.com).

Delivering more than power.™
